PROJECTS

STUDENT REGISTRATION WEB APPLICATION WITH COMPREHENSIVE CRUD AND FORM VALIDATION

Developed a Student Registration web application featuring robust form validation and complete CRUD (Create, Read, Update, Delete) functionality for efficient student profile management. The application provides a responsive and user-friendly interface designed using HTML, CSS, Bootstrap, React.js, and Material-UI, ensuring accessibility across devices.

On the backend, utilized Java Spring Boot and MySQL to build a scalable architecture. Implemented RESTful APIs to seamlessly integrate the frontend and backend, enabling efficient data handling and operations.
